Auto Servo Softgel Machine

Auto Die roll zero point control: No need operator set manually, push the touch screen then machine set zero point automatically by Servo motor!

Auto fill weight adjustment control: No need to control using manual jog, Just put the value on touch screen then machine adjust filing weight automatically by Servo motor!

Auto injection timing adjustment control: Each left and right die roll is controlled by individual Servo motor that is why no need timing gear and automatic injection timing adjustment is available!

Auto recipe memory system: Very advanced HMI is applied so almost unlimited recipe memory is available!

Auto production parameter memory system: all parameter including die roll zero point setting can be set automatically by just calling saved recipe!
